

The Mississippi and Tributaries; A Commercial and Statistical Review (Paperback)

By Alexander Dwight Anderson

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1881 Excerpt: . Reducing that to pounds, -at 440 pounds to the bale, we have a total of 3,969,563,840 pounds. At eleven cents per pound the total value of their annual crop would be \$436,652,022. It is evidently nearer the truth to say that the overflowed lands, if protected and cultivated as carefully as the farm lands of New Jersey, would produce on an average at least one bale to every acre. It is an assertion which any planter familiar with the wonderful fertility, depth, and inexhaustibility of the alluvial soil will readily indorse. At that rate the Delta of the Mississippi would produce each year 23,727,168 bales worth, at 440 pounds to the bale, and at 11 cents per pound, \$1,148,394,931. This is an annual yield fifty-three times more valuable than the annual contri The Silver Country, by A. D. Anderson, chap. ii. f Sec U. S....

Reviews

These kinds of book is every thing and helped me hunting forward plus more. It is probably the most remarkable book we have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Everett Stanton**

The book is great and fantastic. Yes, it really is engage in, still an interesting and amazing literature. You wont feel monotony at at any moment of your respective time (that's what catalogs are for regarding if you request me).
