RESEARCH ETHICS CONSULTATION: A CASEBOOK (PAPERBACK)

Oxford University Press Inc, United States, 2012. Paperback. Book Condition: New. 231 x 155 mm. Language: English . Brand New Book. Interesting and important ethical questions confront researchers, regulators, institutional review boards, support personnel, and research participants committed to the ethical conduct of human subjects research at all stages of research. Questions encompass - but are not limited to - study design, enrolling participants, balancing the clinical needs of participants against the research agenda, ending trials, discharging post-trial obligations, and resolving conflicts. In this book, members of the Bioethics Consultation Service reflect on this long track-record and unparalleled range of research ethics consultations to share a collection of their most interesting and informative research ethics consultations and to start a dialogue on remaining open questions. Although the NIH experience is unique, this book focuses on cases - and associated lessons - that are generalizable and valuable for the entire clinical research...
