The international conference Intelligent Information Processing and Web Mining IIS: IIPWM05, organized in Gdansk-Sobieszewo on 13-16 June, 2005, was a continuation of a long tradition of conferences on applications of Artificial Intelligence (AI) in Information Systems (IS), organized by the Institute of Computer Science of Polish Academy of Sciences in cooperation with other scientific and business institutions. The Institute itself is deeply engaged in research both in AI and IS and many scientists view it as a leading institution both in fundamental and - plied research in these areas in Poland. The originators of this conference series, Prof. M. Dąbrowski and Dr. M. Michalewicz had in 1992 a long-term goal of bringing together scientists and industry of different branches from Poland and abroad to achieve a creative synthesis. One can say that their dream has come to reality. Scientists from five continents made their submissions to this conference. A brief look at the affiliations makes international cooperation visible. The research papers have either a motivation in concrete applications or are offshoots of some practical requests. This volume presents the best papers carefully chosen from a...

Reviews

Very useful to any or all group of folks. It really is really interesting through reading through period of time. Once you begin to read the book, it is extremely difficult to leave it before concluding.
